Room Locations:

Some Things to Remember:

- If the room number has 3 digits, it's on the first floor (400 and 600 rooms near the commons)
- If it has four digits, look at the first number. That will tell you the floor. The second number will tell you which wing – 200 or 300. The last two digits are the room number.

Example:

Where are Mobiles?? Go to the 300 locker by on the first floor. Pass by Mr. Pittman's Office and there is a door to the outside. The "learning cottages" are there!
